***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given by Ms. Usha Munukutla-Parker during a telephone interview on July 16, 2008.

The application has been amended as follows:

In Claim 10:

line 9, replace "if" with -- when --.

***Reasons For Allowance***

The combination as claimed wherein a method for measuring movement of a solid, comprising a criterion of slowness of movement is chosen, and when the movement meets this criterion after one of the measurements of the second degree of freedom, the measurement of the second degree of freedom obtained is used to update the first translation (claim 10) is not disclosed, suggested, or made obvious by the prior art of record.

As previously discussed, Foxlin (US 5,645,077) does not disclose updating a first translation based on a criterion of slowness of movement.

Horton et al. (US 5,819,206) discloses a method and apparatus for determining position and orientation of a moving object using accelerometers (see Title). However, Horton et al. does not disclose updating a first translation based on a criterion of slowness of movement.
